# BULGARS IGNORE PLEA BY TURKEY

King Ferdinand Makes No Reply to Request for Armistice.

### RENEW ATTACK ON TCHATALJA

Cholera Paralyzes Sultan's Army-Mutiny Is Feared More Than Guns of Enemy-England Refuses to Aid Russia.

Constantinople, Nov. 16.-The Turkish government on Thursday had received no news from Sofia to indicate the nature of the reception by Bulgaria of the request for an armistice. It is officially denied that an armistice has already been arranged

Fighting has been resumed along the Tchatalja lines, after a cessation of hostilities that began on Sunday.

The Turkish battleship Turghut Reis began a bombardment of the Bulgarian forces north of Lake Derkos, on the Black sea

A bombardment of the southern end of the Bulgarian lines is being executed by the Turkish cruiser Hamidish and several other vessels in the Sea of Marmora

### Roosevelt Leads Wilson by 56 Votes Governor Ahead in Idaho.

San Francisco, Nov. 16,-With one precinct missing and nine counties re- ble, must be actually counted and remaining to be canvassed officially, ceipted for. California gave Roosevelt a plurality of 56 over Wilson. The final result remained, however, in the keeping of three populous counties, which had not certified to their returns.

Bolse, Idaho, Nov. 16.-Woodrow Wilson had a lead of 415 votes over President Taft on the latest returns. The vote now stands: Wilson, 32,-826; Taft, 32,411. About 50 districts have not reported.

### THREAD MAGNATE IS DEAD.

### William C. Clark Expires From Blood Clot Caused by Accident.

Newark, N. J., Nov. 16.-William Campbell Clark, president of the Clark | South Dakota statute. Thread works, and probably the best known man in the world in the thread industry, died at his home here last night from the clogging of the intestinal ducts by blood clots. Death was primarily due to an injury sustained two years ago when Mr. Clark injured his hip by jumping from an automobile.

### TWO LAUNCHES WRECKED; WO LAUNCHES WRECKED; EIGHT CHICAGOANS DROWN? FIFTEEN KILLED

Two Vessels on Way to St. Louis Go Over Dam Near Beardstown, III.

Beardstown, Ill., Nov. 16.-Two gasoline launches, bound from Chicago to St. Louis, went over the government dam eight miles south of here Thursday. It is known William M. Moore of Chicago and three or four other men were drowned, and it is thought four other men were on the boats. All of the victims are supposed to have been Chicagoans. None of the bodies have been recovered.

The Launches were the Five Dollar Bill and the A. F. Moore They left Chicago Saturday morning. The lock tenders heard cries for help. They rushed to the scene and found the A. B. Moore hanging in the swirling water, upside down, from the top of the dam. The Five Dollar Bill had successfully weathered the terrible plunge, but her crew had evidently jumped overbbard or been thrown out and lost. Captain Kerr, in charge of the government locks, took charge of the Five Dollar Bill, which was recovered a mile below the dam. The Moore still hangs on the face of the dam. The coroner of Cass county at Beardstown has assumed charge of the suit cases and personal effects found in the launches. River men are now dragging the swift waters of the river below the dam for the bodies.

### RIOT OCCURS IN COMMONS.

House Is Scene of Uproar and Churchill Is Struck.

Lendon, Nov 1 -- The Tory policy of forcing the dissolution of parliament by organized disorder was tried on Wednesday when Premier Asquith moved his resolution rescinding the amendment added to the home rule bill by a snap vote on Monday afternoon. As Asquith left the house its supporters cheered him enthusiastically for a couple of minutes, which so infuriated the Tories that they threw order papers in the faces of the ministers and jostled and pushed them. Churchill first lord of the admiralty, hearing. whom it struck on the cheek causing blood to flow Churchill looked round fiercely and started to go behind the speaker's chair to get at MacNeill. John Burns stopped Churchill and prevailed on him to ignore the incident.

It was perhaps the stormiest session the house has ever known. From the moment the premier made his motion to rescind the vote, the uproar continued almost uninterruptedly.

### BODY OF SPAIN'S PREMIER **ENTOMBED IN PANTHEON**

Business Throughout Nation Is Suspended During Ceremony-King and Princes Follow Hearse.

Madrid, Nov. 15.-The body of Spain's premier, Jose Canalejas, who was assassinated Tuesday, lies in the pantheon where it was entombed with much ceremony. All business was suspended not only in Madrid but throughout Spain during the hour of the ceremony.

King Alfonso, accompanied by Prince Charles of Bourbon-Siciles and Prince Ferdinand of Bavaria, walked behind the hearse from the chamber of deputies to the pantheon, while 250,000 persons stood with uncovered heads in tribute to the dead premier. The members of the diplomatic corps and an official from every department of the government attended the fu-

The press of all shades of opinion condemns the assassination and lauds Senor Canalejas as the finest type of Spaniard, who, in addition to being a great statesman, had devoted himself to the amelioration of the condition of the poor.

Manuel Pardinas, the assassin, died, according to the police, without making any statement. The exact motives for the deed, therefore, remain a mystery.

The present Liberal cabinet will continue to hold office under the temporary presidency of Foreign Minister Manuel Prieto until the signatures have been affixed to the Morocsenger train, Indianapolis; Ben Boyle, can treaty with France, which will

### ECHO IN LORIMER CASE DIES.

Bribery Charges Dismissed Against Representative R. E. Wilson.

Chicago, Nov 16-The last echo of the Lee O'Neil Browne bribery scandal was probably sounded in Judge Kersten's court on Thursday, when a charge of perjury against Representative Robert E Wilson was dismissed. The prosecution was dropped on the motion of Assistant State's Attorney Victor P Arnold The charges against the representative grew out of his testimony in the Browne trial, wherein he denied having handed out money to four other representatives in a bathroom in the Southern hotel at St. Louis, as payment for the election of William Lorimer to the senate.

WILSON TO ASSEMBLE CONGRESS BY APRIL 15 FOR THAT PURPOSE.

### PARTY PLEDGES FULFILLS

President-Elect Declares Democratic Sentiment to Be Unanimous in Favor of an Extra Session-Leaves for Islands of Bermuda.

I shall call congress together in extraordinary session not later than April 15. I shall do this not only because I think the pledges of the party ought to be redeemed as promptly as possible, but also because I know it to be in the interest of business that all uncertainty as to what the particular items of tariff revision are to be should be removed as soon as possible. -WOODROW WILSON.

his purpose of calling an extra session | The child floated for a few minutes of congress not later than April 15, instead of waiting six months after he assumes the presidency on March 4, for the regular session to convene, President-elect Wilson took the first important step Friday towards earrying out his pledges to the people. As he issued his statement the pres-

ident-elect remarked. "The list of members of congress

and prominent Democrats throughout the country who had expressed themselves on the subject showed that the sentiment in favor of the calling of an extra session was widespread--I might say almost unanimous. The extra session will have the advantage of giving us an early start towards effecting the reforms to which the Democratic party is pledged."

Simultaneously with the issuance of his statement, the president-elect gave permission to say that he is to spend his vacation in Bermuda. He sailed on the steamship Bermudian from the pier of the Quebec Steamship company at West Tenth street and North river at two o'clock Saturday afternoon The Bermudian was booked solidly and the president-elect was assured by the officials of the line that there were no politicians among the passengers. The president-elect will spend four weeks on the island, returning to New York December 16. He was accompanied by Mrs. Wilson and the Misses Jessie and Eleanor Wilson. Miss Margaret Wilson, the elder daughter, remained in New York to continue her study of music

Governor Wilson has leased a little cottage on the island from an American. He requests that its exact location be kept a secret lest he be bombarded by letters from office seekers and politicians. He intends that this shall be a real vacation, free from work and worry. The governor will spend much of his time bicycling and horseback riding.

### RESCUE 7 BURIED IN MINE

Number of Sightseers and Guide Are Caught in Famous Horn Silver Property in Utah.

Frisco, Utah, Nov. 18 -After being entombed twenty hours in the famous Horn silver mine, a party of seven, including two girls, were rescued Friday. The party went into the mine on a sightseeing tour Thursday, There were in the party Daisy Alexander, nineteen; Hazel Alexander, sixteen; David Banks, Harold Robinson, James Riley, mine boss; John White, miner, and a Greek miner, name unknown. Shortly after the party had reached the 300-foot level, there came a great crash, and-a terrible tearing sound. Riley instantly knew there was a big cave-in. He hustled his party to the uttermost end of the level workings. Their lights were extinguished and the dust choked them. The girls became greatly excited and were calmed with difficulty. The party remained away from the shaft, and by means of signaling on the compressor pipe with the "miner's code," he informed those at the surface that everybody was safe. Meanwhile the rescuers had been at work all night driving a little rescue tunnel. Only a few men could work at a time, and the earth slipped in almost as fast as it was taken out. Finally at 1:45 Friday afternoon, the party was reached and quickly brought to the surface, exhausted, but uninjured.

Eagle River.--Joseph Tooley, a farmer, while hauling wood to town, fell off the wagon, breaking his neck.

Madison.-A big live stock exposition will be one of the main features of the two weeks farmers' course which will be given in Madison from January 1 to February 7. The breeders of Holstein, Guernsey and Brown Swiss cattle have promised to send in animals to be placed on exhibition, and Robert E. Ogilvie, secretary of the American Clydesdale Breeders' association has promised to secure the loan of the Union Stock Yards gelding, Ivanhoe, which will be remembered by those who are interested in cattle and horses. A large number of the Badger state breeders have been appointed members of the exposition committee.

Racine.-William Christ of Beaver Dam was brought to Racine and lodged in the county jail, charged with the embezzlement of \$210 from the Lloyd Shirt company of Racine. Christ, while agent of the company, is alleged to have obtained orders for goods and on their being manufactured made deliveries and collected the money due, but failed to make return to the company. A warrant was issued for his arrest and he was found at his home in Beaver Dam.

### Selling Bonds in Chicago.

Otto A. Assmann, until recently cashier of the Wisconsin State bank in this city, but who had been at his home in Portage a few weeks, has gone to Chicago to become local salesman in the bond department of the National Bank of the Republic. A position of this character requires tact and ability, both of which traits Mr. Assmann possesses in a marked degree, and he will do well in his new

### An Interesting Romance.

If a woman's devotion to a man in desperate straits, making a pure love story of unusual heart interest, as shown in Charles Klein's latest play, "The Third Degree, interests playgoers, then the forthcoming production by the United Play Company of this drama, should be heralded as the dramatic event of the season. The love story is only one phase of the play, which is really an excerpt from life in some of its most interesting phases, dealing with police methods and also Fifth Avenue society.

### Band Dance Friday Night.

At the Empire roller rink next Friday evening the big dancing event of the Thanksgiving season will take place, when the Union band of 24 pieces will furnish music for their first dance of the year. The band has improved wonderfully since last season and a better time than ever is assured. Their repretoire of music contains the latest popular hits. The management of the rink promise the floor to be in tip-top condition. Tickets, \$1.00. Come and encourage your band with your presence for "better than ever" concerts next season.

### Children's Home Society.

Ira D. Danks of Fond du Lac, successor to Rev. L. G. Carr, with whom the people of Stevens Point were well acquainted, is in our city in the interest of the children. This society is the oldest and most extensive organization of its kind, placing directly into family homes for care and adoption. They handled 222 children and babies last year; they have taken in 114 this year. It surely is a worthy cause and worthy of support. This society is taken care of solely by contributions. Mr. Danks calls yearly about this time and will appreciate anything you can do for him, as will also the society.

### The Case Reversed. It will be remembered that three

years ago last May a boiler on one of the big dredges in the Dancy drainage district blew up, killing one man and injuring several others, one of the latter being Wm. Brey of Milladore, left for Madison this forenoon, where who hovered between life and death a meeting of Normal presidents and for several weeks. Since the accident city superintendents will be held for his right arm has been practically use-Mr. Rrey brought suit against the

drainage contractors, Forrestal & Downey of Milwaukee, and the case was tried in Milwaukee circuit court last

here as yet, but it is probable a new trial is ordered. Mr. Brey had hoped for a favorable outcome, and is thereway of Grand Rapids is his attorney.

A Friend of the Mississippi Pilots In the Old Days.

QUEER LITTLE LIGHTSHIPS.

They Were Floated and Anchored In the Channel of the River on Dark Nights and Showed the Navigator on Down Trips Where Reefs Were Not.

In the old steamboat days on the Mississippi, before the government had andertaken the duty of marking and lighting the "crossings" where the channel swings over from one bank to the other, the river pilots had to devise their own means of finding their way through these difficult and dangerous places.

In the daytime it was not hard to do. and on moonlight nights the landmarks, which every pilot knew by heart, could be seen plainly enough to make the crossing possible. But there were many nights so dark or foggy that the shore marks were not visible; then the reefs had to be "candled."

Candling was resorted to only on the down trip Going up the river the pilot might "feel" of the reef with his boat, and if he did not find the best water the first time he could back off and try again a little to one side or the other, wherever the soundings showed the deepest water to be.

In going down the river, however, that was impossible. The pilot had to find the channel the first time, for if the boat struck the current would drive her hard on the reef or else swing her broadside on the bar and in ten minutes imbed her in the very midst of it with tons of drifting sand.

To guard against such a disaster when nearing Pig's Eye, Beef Slough or Trempeleau bars-or any one of a dozen bars of equal difficulty-on a over. dark or hazy night the pilot stopped the boat at the head of the reef. With two men to row, a mate or watchman to steer, a "cub" pilot to manipulate the "candle buoys" and an older pilot to take soundings, the yawl was lowered and permitted to drop down the channel below the steamboat.

After the pilot had determined the best course by taking soundings the "cub," under his direction, anchored two, three or even four of the candle buoys, one after the other, in the center of the channel, and then the men let the yawl drop down below the reef, where it lay a little outside the channel. Then one of the men swung u lantern—a signal at which the pilot on watch came ahead, steering for the tiny lighthouses and running over them, one by one, until the reef was

The candle buoy was made of a piece of two inch light pine plank, beveled for four inches at the "bow" in order to prevent its "diving" as the current pressed against it. A tin "sconce" with three legs, three or four inches long, was tacked down to the plank Half of a common candle was placed in each scouce, and after being lighted an oiled paper chimney, with a base corresponding to that of the candlestick, was placed over the light to protect it from the wind. The outer ends of the tin "legs" of the sconce were turned back over the base of the paper chimney to hold it in place, and the buoy was ready for launching.

A hole was bored about six inches from the end of the plank. Through the hole a small cord some ten or twelve feet in length was rove and knotted, and to this cord a lump of coal weighing perhaps ten pounds was tied. This served as an anchor to hold the buoy in its place in the center of the channel.

Such was the procedure fifty years ago or more. Since the government establishing permanent lights at all bad crossings it is seldom necessary for the pilots to go out in a sounding boat, although it is not an unheard of proceeding even now

But the candle buoy is a thing of the past. Probably there are scores of present day pilots who never even heard of the makeshift little lightships that their puzzled predecessors were wont to launch amid the darkness and doubt of former years.-Youth's Compauion.

A Title as Long as a Preface.

Many old pamphlets are distinguished by titles as long as prefaces. The author of one, published in 1646, evidently did not share in the modern editor's enthusiasm for short title headings, for this is the name under which his publication was ushered into the Phone world: "Scotlands publick Acknowledgement of Gods Just Judgment upon their Nation for their Frequent Breach of Faith, Leagues, and Solemne Oathes made to their Neighbours of England in former ages, to gratine their Treacherous Confederates of France."-London Globe.

By KATHLEEN J. M'CURDY

It was in the days of illest distilling in Kentucky. A man riding along a road in the eastern part of that state, reaching a snug farmhouse, drew rein.

"I'm looking for a farm to buy," he said. "Do you happen to know of any good bit of land about here with some buildings on it?" "No; I don't," said the woman, who

was both young and comely. "There ought to be good farming

about here." "Stranger," said the woman, "you hain't looking for farms. You're a revenue man after stills."

The man was astonished. He had supposed he was playing a very successful game.

"If you'd root out the stills the people about here would go to farming instead of making whisky." "I can't root out the stills," replied

the man, "unless you people help me." "What kind o' help do you want?" "Information." "Well, come in and have a snack. Perhaps my husband'll be coming

along soon, and he may do something

for you." The revenue man dismounted, led his the fact that it is only during the last herse to the stable in the rear and enwronged the many. A district where it was notorious never prospered. It was under a ban; no credit; no production of crops; no comfort for any one. She appeared to agree with him

and when he had finished said: "Did you ever hear of Joe Com-

"No. I'm a new man; just put on to this district."

"That's the only one we could get you on to here. If my husband don't come home purty soon I'll tell you all about it."

Her husband didn't come home. She said she supposed he had been delayed. So after supper she said she would tell him where the Comstock still was, and if he liked he could go and clean it out. It was the only one left in that immediate vicinity and most of the people thereabout would be glad to see it shut up The woman after she had cleaned away the stranger and on a piece of paper drew a diagram of the route to Comstock's. It was rather a zigzag course, extending over several miles. The stranger asked if there was no more direct route, and she told him that there was none that could be made plain to one who was not familiar with the coun Special arrangements have been try. When it was dark he got out

"You going to take Joe Comstock alone?"

"That's just what I'm going to do" "You're a plucky one."

The man rode away, following the route exactly as it had been laid down by the woman. He was most of the time climbing a mountain side, and, though the distance was but a few miles, he was two hours getting to a point just beyond which he had been told he would find the Comstock still. He was to recognize it by the crossing the angles. From the crossroads he was to pass through an opening between the trees, go over a stone wall follow a tunnel a short distance down the mountain and he would come upon We hope this great medicine the still. Leaving the crossroads, he moved on as directed.

He was moving very quietly down the stream when he dislodged a stone that betrayed his approach. He paused, but, hearing nothing, moved forward again. Suddenly be heard the words come out of the darkness, "Hands up!"

He knew that he was on an elevation that showed the sky line beyond him and that doubtless his enemy could see him, while be could not see his enemy. He held his revolver in his hand cocked and, hoping to at least disconcert his opponent, fired into the darkness. The only response was a bitter laugh. It sounded like that of a woman crazed. Then came a voice which sounded distinctly feminine:

"Drop your weapon. I can kill you if I like!"

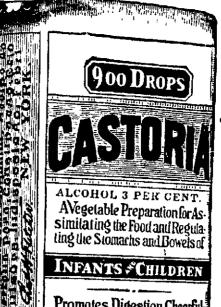

The revenue man hesitated a moment, then thought it best to do as he had been bidden. Suddenly a bullseye lantern was flashed in his face.

"You're not the coward the other one was to come here and surround the place and kill my Joe You're a brave one if you are a revenue. I'm Miss Joe Comstock, the woman who sent you here. I knew you were a revenue right off, and since I've been wishing for a chance to get even with you government men i gave you a coundabout way, coming myself straight up the mountains. I intended to kill you, but "Well, then, since there is to be no

killing, suppose we shake hands and say no more about it' "You go your way and I go mine.

Good night." The next afternoon the stranger

again rode up to the Widow Comstock's house and after a long interview per suaded her to live up a still that she had been running ever since her husbored, but yet we are so conceited that pile cure. ### A SYMBOL OF FREEDOM.

The Liberty Cap Dates Away Back to Early Greek Times.

From very early times one of the distinguishing marks of a slave, both in Greece and oriental countries generally, was the lack of any covering for the head. Accordingly the cap came to be considered the insignia of liberty, and when slaves were given their freedom they were presented with a cap as an emblem of it.

In Sparta the belots were a cap of dogskin, and this was reckoned a badge of servitude, but upon gaining their freedom this was replaced by a cap of a different material, of another shape and ornamented with flowers. A similar custom was observed in Rome, where the presentation of the pileus, or cap, was always a part of the ceremony of manumitting a slave; hence arose the proverb. "Servos ad pileum vocare."

Also on medals the cap is the symbol of liberty and is unsually represented as being held in the right hand by the point. When a cap was exposed to the people's view on the top of a spear, as in the case of the conspiracy against Caesar, it was intended as a public invitation to them to embrace the liberty that was offered them.

The Goddess of Liberty on Mount Aventine was represented as holding a cap in her hand as a symbol of freedom. The Jacobins were a red cap during the French revolution, and in England a blue cap with a white border is used as a symbol of liberty.

The custom which prevails among university students of wearing a cap is said to have had its origin in a wish | that's what makes them nice. to signify that the wearers had acquired full liberty and were no longer subject to the rod of their superiors.

### The Bird of Death.

In New Guinea there is said to be a venomous bird called the bird of death. It is about the size of a pigeon, with a tail of extraordinary length ending in a tip of brilliant scarlet. It has a sharp, hooked beak and frequents marshes and stagnant pools. The venom with which it inoculates is distilled in a set of organs which lie in the upper mandible, just below the openings of the nostrils Under them, in the roof of the mouth, is a small fleshy knob. When the bird sets its beak in the flesh of a victim this knob receives a pressure which liberates the venom and moculates the wound.

### Baby Seals. .

Baby seals are at first snow white, which makes them invisible on the white ice on which they are born. Their eyes and noses are, however, black, and when the little ones are suddenly alarmed they close their eyes. bury their noses and lie quite still. It is only when they grow and begin to seek their own food that they become dark and sleek.

CHAPTER III.

The handsome townhouse of Howard Jeffries, the well-known banker, on Riverside drive, was one of the most striking among the many imposing millionaire homes that line the city's splendid water front. Houses there were in the immediate proximity which were more showy and had cost more money, but none as completely satisfying from the art lover's standpoint. It was the home of a man who studied and loved the beautiful for its own sake and not because he wanted to astonish people with what miracles his money could work. Occupying a large plot on slightly elevated ground, the house commanded a fine view of the broad Hudson. Directly opposite, across the river, busy with steam and sailing craft, smiled the green slopes of New Jersey; in the purplish north frowned the jagged cliffs of the precipitous Palisades.

The elder Jeffries, aristocratic descendant of an old Knickerbocker family, was proud of his home and had spent large sums of money in beautifying it. Built in colonial style of pure white marble with long French windows and lofty columns supporting a flat, rounded roof, surrounded by broad lawns, wide-spreading shade trees and splashing fountains, it was a conspicuous landmark for miles. The interior was full of architectural beauty. The stately entrance hall, hung with ancestral portraits, was of noble proportions, and a superb staircase, decorated with statuary, led off to tastefully decorated reception rooms above. To-night the house was brilliantly illuminated and there was considerable activity at the front entrance, where a footman in smart livery stood opening the doors of the carriages as they drove up in

quick succession. Mrs. Jeffries' musicales were always largely attended because she knew the secret of making them interesting. Her husband's wealth and her fine house enabled her to entertain on a liberal scale, and she was a tactful famous political salons in which the brilliant women of the eighteenth century molded public opinion in France. She had herself. married a man she did not love, it was true, but other women had done that before her. If she had not brought her husband love she at least of. In her Paquin gown of gold cloth, with sweeping train and a jeweled tiara in her hair, she considered herself handsome enough to grace any man's home. It was indeed a beauty which she saw in the mirror-the face of a woman not yet 30, with the features regular and refined. The eyes were large and dark and the mouth and nose delicately molded. The face the expression. She had a cold, calculating look, and a cynic might have charged her with being heartless, of stopping at nothing to gain her own ends.

To-night Alicia had every reason to feel jubilant. She had secured a social lion that all New York would talk about-no less a person than Dr. Bernstein, the celebrated psychologist, the originator of the theory of scientific psychology. Everything seemed to go the way she wished; her musicales were the talk of the town; her husband had just presented her with the jeweled tiara which now graced her head; there seemed to be nothing in the world that she could not enjoy.

Yet she was not happy, and as she gazed at the face reflected before her in the glass she wondered if the world guessed how unhappy she was. She knew that by her own indiscretion she was in danger of losing all she had won, her position in society, her place in the affections of her husband, everything.

When she married Mr. Jeffries it was with deliberate calculation. She did not love him, but, being ambitious, she did not hesitate to deceive him. He was rich, he could give her that prominent position in society for which she yearned. The fact that she was already engaged to a man for whom she did care did not deter her

She had met Robert Underwood years before. He was then a college boy, tall, handsome, clever. She fell in love with him and they became engaged. As she grew more sophisticated she saw the folly of their youthful infatuation. Underwood was without fortune, his future uncertain. While in this uncertain state of mind she met Mr. Jeffries, then a widower, at a reception. The banker was attracted to her and being a business man he did things quickly. He proposed and was accepted, all in the brief time of-five minutes. Robert Underwood and the romance of her girlhood were sacrificed without question when it came to reaching a prompt decision. She wrote Underwood a brief letter of farewell, telling him that the action she had taken was really for the best interests of them both. Underwood made no reply and for months did not attempt to go near her. Then he met her in public. There was a reconciliation. He exerted the old spell-on the married woman. Cold and indifferent to her husband, Alicia found it amusing to have her old lover paying her court and the danger of discovery only gave the intrigue additional zest and charm. She did not lead Underwood to believe that he could induce her to forget her duty to Mr. Jeffries, but she was foolish enough to encourage a dangerous intimacy. She thought she was strong enough to be able to call a halt whenever she would be so disposed, but as is often the case she overestimated her powers. The intimacy grew. Underwood became bolder, claiming and obtaining special privileges. He soon realized that he had the upper hand and he traded on it. Under her patronage he was invited everywhere. He practically lived | had permitted a man of Underwood's on her friends. He borrowed their character to use his home for his dismoney and cheated them at cards. These thoughts were responsible for the frown on the beautiful Mrs. Jeffries' bejeweled brow that particular Saturday evening. Alicia gave a sigh and was drawing on her long kid gloves before the glass, when suddenly a maid entered and tendered her mistress a note. Alicia knew the handwriting only too well. She tore the letter open and read:

Dear Mrs. Jeffries: I received your letter telling me that my presence at your house to-night would be distasteful to you. As you can imagine, it was a great shock. Don't you understand the harm this will do me? Everybody will notice my absence. They will jump to the conclusion that there has been a rupture, and my credit will suffer immediately with your friends. I cannot afford to let this happen now. My affairs are in such condition that it will be fatal to me. I need your support and friendship more than ever. I have noticed for some time that your manner to me has changed. Perhaps you have believed some of the stories my enemies have circulated about me. For the sake of our old friendship, Alicia, don't desert me now. Remember what I once was to you and let me come to your reception to-night. There's a reason why I must be seen in your house.

Yours devotedly. ROBERT UNDERWOOD. Alicia's face flushed with anger

Turning to the maid, she said: "There's no answer." The girl was about to close the

door when her mistress suddenly recalled her. "Wait a minute," she said; "I'll

sheet of perfumed notepaper, she wrote hurriedly as follows: "If you dare to come near my house

to-night I will have you put out by the servants.' Quickly folding the note, she

crushed it into an envelope, sealed it, handed it to the girl, and said:

"Give that to the messenger." The servant disappeared and Alicia resumed her work of drawing on her gloves in front of her mirror. How dare he write her such a letter? Was her house to be made the headquarters for his swindling schemes? Did he want to cheat more of her friends? The more she thought of all he had done, the angrier she became. Her eyes flashed and her bosom heaved with indignation. She wondered what her husband, the soul of honor, would say if he suspected that she honest practices. She was glad she had ended it now, before it was too dal, and that she must avoid at any cost. Mr. Jeffries, she felt certain,

He felt that this woman to whom he had given his name did not love him, but his vanity as much as his pride it, even to himself. After all, what did he care? She was a companion, she graced his home and looked after his creature comforts. Perhaps no reasonable man should expect anything more. Carelessly, he asked:

"Whom do you expect to-night?" coming-you know he's quite the rage just now. He has to do with psychology and all that sort of thing."

"So, he's your lion to-night, is he?" smiled the banker. Then he went on: "By the by, I met Brewster at the club to-night. He promised to drop

Now it was Alicia's turn to smile. It was not everybody who could boast of having such a distinguished lawyer as Judge Brewster on their calling lists. To-night would certainly be a success-two lions instead of one. For the moment she forgot her worry. "I am delighted that the judge is

(CONTINUED NEXT WEEK) Funny Peasant Notions.

The astronomical fore of the Russian peasantry of the north, center and south of the empire is limited to v knowledge of the existence of the sun and the moon and stars, of three constellations, of the Milky way, of one planet, of comets, shooting stars and meteors. The sun is to all a mysterious and beneficent being.

The moon, covered with ice and snow, is ever in flight from its brother, the sun. Upon its disk is portrayed the murder of Abel by Cain, the latter being done to death with a pitchfork. The lunar rays are maiignant, and evil comes to those who sleep unprotected from them. The horns of the moon afford information as to the weather.

The stars are lamps or candles lighted and extinguished by the Eternal. A shooting star is the soul of one just passed away. Comets are heralds of war and famine. No Russiau ever forgets that the Napoleonic war followed the great comet of 1811.-Exchange.
